<b>Type of project:</b>	Loading of various products incl. fertilizer into open ships
<b>Scope of supply:</b>	1 unit
<b>Capacity:</b>	Max. 700 m <sup>3</sup> /h
<b>Client:</b>	Videbæk Maskinfabrik A/S Denmark, / BEGA Lithuania - Klaipėda Harbour
<b>Year:</b>	1999

### Detail Information

For the loading of fertilizer and other products into ships, this loading chute was ordered by Videbæk Maskinfabrik, as a part of their complete project.

The loading chute has a modular construction with internal guide cones. All metal contact parts are made in stainless steel. The modular construction ensures easy modification and quick replacement of single modules.

The chute is equipped with 4 off rotating indicators in the outlet, and has a total length of approx. 14,5 m.
